1800 THE QUESTIONS AND MYTHS OF CHRISTIAN AMERICA
William Saum

Is America a Christian country? A Judaeo-Christian country? A secular country? What difference does it make? This course will examine the role of religion in the founding and development of America from the very beginning to the present day arguments. We will discuss founding documents, religious freedom, separation of church and state, and issues including slavery, prayer in public schools, religion and politics, the role of religion in the public square, "civil religion" and recent disputes that question the extent of religious freedom in our country. Maximum enrollment: 20. Minimum age: 16.

1803 CHRISTIANITY: THE BASICS
Jeannette Ludwig

This overview examines five distinct aspects of the Church, beginning with the Jewish context of Jesus. We'll follow with the church's formative stages, including codifying the Bible, major doctrinal disputes like the doctrine of the Trinity. Next we will consider schisms Rome vs. Byzantium, the Reformation that divided Christianity. After comparing various denominations and groups like the Amish, we turn to the modern challenges the Church faces here and abroad.

1806 WOMEN IN WORLD RELIGIONS
Jeannette Ludwig

After an overview of the principles of comparative religions we will briefly explore the core teachings of each of the world's great religions. Challenging contemporary stereotyping about women, each day we will focus on the various roles women play within those traditions. These include, wife, goddess, warrior, and monastic. Special functions – such as healer, teacher/leader and keeper of tradition – will be examined as well. Time will be set aside for personal and group reflection. Maximum enrollment: 30. Minimum age: 16.

1807 CONVERSATIONS ON RELIGION IN A SCIENTIFIC AGE
Raymund Peckauskas

Science and religion have been talking. Overhead in that dialogue: "It has become possible to confess in God without believing in God's existence." The words were those of an Anglican Priest. Our classroom conversations will span segments of the religious spectrum as we discuss the changing attitudes of science and religion toward each other. The impact of science on the development of radical theology will be explored in some detail.

Maximum enrollment: 20. Minimum age: 18.

1812 THE FRIENDSHIP OF RELIGION AND PSYCHOLOGY
William Morrow

In the face of irrational fears and junk science, can two disciplines cooperate in one personal journey? The search for religious truths depends on a struggle with the unconscious mind, yet emotional maturity must have a spiritual dimension. Examine a new intersection of religious practice and psychological tools for the sake of pursuing wholeness of self and the world.

1814 NEITZSCHE, VITAL PHILOSOPHER
Michael Szekely

Considered one of the most influential thinkers in Western thought, Nietzsche is also one of the most misunderstood. His "will to power" was grossly misappropriated by the Nazis. His "Anti-Christ" was misconstrued as nihilistic rather than the call for vital ethics. In addition to exploring key ideas, this course will dispel some of the misconceptions surrounding this seminal thinker.

Maximum enrollment: 15. Minimum age: 18.

1815 RELIGIOUS LEADERS WHO FUELED THE CIVIL WAR: ABOLITIONIST & PRO-SLAVE
Ray Merz

This sesquicentennial year of the start of the Civil War provides an ideal occasion to consider the strident voices of religious leaders who were adamantly abolitionist and adamantly pro-slave in the decades preceding the Civil War. How much were they responsible for escalating the rhetoric toward the inevitable conflict? Is the polarization of today's society analogous to that era?

Maximum enrollment: 20. Minimum age: 16.
